PROFESSIONAL SUMMARY

- Motivated Computer Science fresher with hands-on experience in **AI/ML, Generative AI, and Data Science** through real-world projects and a 3-month Data Science internship. Proficient in **Python, PyTorch, Scikit-Learn, XGBoost, and Power BI** with strong problem-solving skills backed by **325+ LeetCode problems** solved. Actively seeking **Software Developer or AI/ML Intern** roles to build and deploy impactful AI-powered solutions.

EDUCATION

IIIT RGUKT RK VALLEY

B.Tech in Computer Science and Engineering | CGPA: 8.2

- Coursework:** Data Structures, Algorithms, Databases, Computer Systems, Machine Learning, Java, Python

Aug. 2021 – May 2025

Kadapa, AP

INTERNSHIP

Data Science Intern

Pragyashal Cloud Solutions (Google Partner)

- Built ML models for data-driven problem solving using Python, Scikit-Learn, Pandas and NumPy
- Performed data cleaning, preprocessing and EDA to extract actionable business insights
- Created Power BI dashboards to visualize KPIs and support business decision making

Mar 2025 – May 2025

[GitHub Repo](#)

PROJECTS

URL Phishing Detection Using ML

Python, Scikit-Learn, Pandas, NumPy, XGBoost

- Built an ML model to detect phishing URLs using Random Forest, Logistic Regression and XGBoost
- Extracted domain structure, keywords and length-based features for model training
- Tools: Python, Scikit-Learn, Pandas, NumPy, Jupyter Notebook

2025

[GitHub Repo](#)

Text-to-Image Generation Using Stable Diffusion (SDXL-1.0)

Python, PyTorch, Diffusers, HuggingFace, Google Colab

- Generated high-resolution images from text prompts using SDXL-1.0 model on Google Colab
- Tested 50+ prompts to evaluate and improve output quality using prompt engineering
- Tools: Python, PyTorch, Diffusers, HuggingFace, Google Colab

2024

[GitHub Repo](#)

COMPETITIVE PROGRAMMING

LeetCode — Top 85.05% Globally | Rank 407,144

[jampanagangothri1073](#)

- Solved **325+ problems** (88 Easy, 180 Medium, 57 Hard) — **216 submissions** in past year | **12 Badges** including **100 Days Badge 2026** | 163 active days, max streak 44 days

SKILLS

Languages: Python, C

AI/ML: Generative AI, Stable Diffusion (SDXL-1.0), PyTorch, Scikit-Learn, XGBoost, Prompt Engineering

Data Science: Pandas, NumPy, EDA, Power BI, Data Visualization, Jupyter Notebook

Web: HTML5, CSS3

Tools: Git, GitHub, Google Colab, VS Code

Core: DSA, OOP, Problem Solving, Debugging

CERTIFICATIONS

- Front-End Development — [View Certificate](#)
- Python Programming — [View Certificate](#)

- Artificial Intelligence with Python — [View Certificate](#)

ACHIEVEMENTS & AWARDS

- Dr. A.P.J. Abdul Kalam **Vidya Puraskar** — 2019
- Certified **Yoga Wellness Instructor** — 2025

- State 1st Rank** in Information Technology — 2019
- RMSA Campaign Participant, Gujarat — 2017
